Margaret Walker Wins Teacher of the Year Award from Chapman University College -- Irvine Campus

SAN RAFAEL, CA ... May 16, 2008 Margaret Walker, Managing Consultant for FutureSense, Inc., has been voted Teacher of the Year at Chapman University College's Irvine campus. She was selected by campus-wide student nominations, "for teaching from the heart and truly inspiring the students with knowledge and great wisdom". The award was presented at the school's Annual Faculty Breakfast.

"Margaret's award is particularly significant because both graduate and undergraduate faculty members were considered," said FutureSense CEO Jim Finkelstein. "To have taught at Chapman for only 14 months and be awarded this prestigious honor is a true testimony to Margaret's talents and ability to connect with people."

Margaret has been an adjunct faculty member at Chapman University College since January of 2007. She teaches in the Graduate Organizational Leadership degree program in the areas of Practice of Organization Development, Seminar in Organization Dynamics, and Organization Development and Change. "My Chapman students are amazing in their curiosity, energy and passion for moving things forward," said Margaret. "As adult learners, they are always engaged, and easily link course materials to real-world situations, which makes them fun to teach, and keeps them evolving as employees."

FutureSense, Inc. is an advisory firm specializing in Organization Development, Incentives and Compensation, Succession Planning and Communications. Its goal is to engage people to speed results by motivating key audiences – employees, customers, regulators, shareholders. FutureSense covers the spectrum of organizational needs, and has special expertise in onboarding millennials and the mashup of generations in the workplace, and a keen interest in business sustainability.
